Saven's Effervescent' California Fruit

Is prepared from sound, ripe fruit, by an experienced ana vitical chemist, who has seen years in experiencing on its preparation. It is manufactured by a special process known only to the proprietor. This preparation is a safe, simple and effectual medicine for regulating the action of the stomach liver and kidneys. It is mest particularly recommended for Dyspepsia, Indigestion, Headache, Hearburn, Acidity of the Stomach, Hebitral Constipation, Nausea, Fea Sickness, Ridney and Liver froubles, Over-Induleence either in eating or drinking, etc. As a purifier of the blood in all Scrothlous Diseases, it has no equal. It removes all eruptions from the skin, and has a cooling and invigorating effection the system. The FRUIT SALT is entirely different from say of the efferteecent Salts of Sedlitz preparations in the market, being manufactured from Fruit. For sale by april-19.

Wrinkled Faces.

It is a painful sight to see young ladies in their teens with wrinkled and prematurely old faces; nevertheless it is quite common and to any one who observes the tendency of the times the reason is very apparent. Owing the faces, in which are used the names of eminent physicians and chemists, the unsuspecting and creduleus have been induced to use some of the so-called liquid beautifiers, all of which are known be positively injurious, and if used for any length of time will destroy the complexion, so that it will be next to impossible to restore it. Mothers should be very exercial to see that their daughters do not use these preparations, but ask for and obtain Slavenis Harmless beautifier. For sale by Osburn & Shoemaker.

The anti-polygamy plank of the platform adopted by the Iowa Republicans was inserted through the influence of some 10,000 anti-polygamy Mormons who abide in the southwestern part of that State. They hold the original tenents of the Mormon Church, but are strongly opposed to the favorite institution of the church as it is conducted at Salt Lake.

The statutes of Massachusetts are being elaborately revised. The work of codification was first done by three able lawyers, and the result sent to specialists for criticism. A legislative committee next dealt with the matter, followed by a second committee. All that now remains to be done is the enactment of the work by the Legislature next November.

A French newspaper relates that millionaire lost his entire fortune, except about 100,000 francs, and died of grief within the twenty-tour hours. GAZETTE office would do any printing The iron door was closed, but it was they needed before their paper started feared that at actual cost. There is some skirmishing going on between different parties, and it is doubtful who will get started first. The GAZETTE offered its type and presses to the proprietors of the Republican to get out their paper with until they could replace their material, but their affairs were so mixed up with insurance etc., that they concluded to let an issue or two pass, and see what they could do towards getting their new office in. Judge Keiser telegraphed to his son-in-law, W. F. Edwards, formerly of the Gazerre, to come up, but he answered that he was doubtful about coming. So no one knows whether there is going to be a paper right away, or what it will be if there is one. The field is such a good one that it will be filled before long beyond doubt. Truckee is in better shape to day than she has been for years. The fire has thrown a good many back into debt, but the

the doors would be blown in and the store filled with flames. All hands went to work carrying flour in sacks and piling it up against the doors untithey were completely covered. Jus as the work was finished the blow out came, and a man or two that were at the top of the pile, were landed 20 feet away. Mr. Poole and Nelson Martin were walking half-way down the store, and they were covered with flying glass from the windows, A mirror that hung on the wall went like a shot and struck Martin a heavy blow, causing him such pain that he fainted. The oil house was obliterated. It was simply gone and seen no more. The oddest thing about it was that a strong double iron door, in the rear of the main building, entirely outside of the oil house, was torn to pieces for a space of 4 or 5 feet from the bottom. Windows all over town were broken and the report was heard at Boca and Clinton, 8 or 9 miles lumber is immense, and the trade of away. Near by stands the low stone the town has been growing very fast jail, off which the roof was burned. It is laughingly reported that while it was burning, a drunken constable brought up a tramp and wanted to lock him in. There are several of the walls still standing that are not safe, and there is constant danger of their falling. Lumber Cheap.

Elle Ellen thinks the people of Nerada want lumber and he thinks he can furnish it as cheap as anybody. His card in the GAZETTE shows where he may be found and what he can do. The Amount of Timber Going into

The Truckee river will be drawn upon this summer by the railroads for about 25,000,000 feet of ties and lumber. Nearly every mill on the river is now hard at work on ties. The Truckee Lumber Company has an immense contract from the Central Pacific, and they have their own immense double mill as well as George Schaeffers and the Benner mill on the order. The Southern Pacific sends orders to buy all the ties that can be got, and C. M. Fulton is in Truckee and has orders from the Company to get all the cars neccessary and rush everything to the front. All cars are billed to El Paso, Texas. About four a day are going forward now, but the amount will be increased to ten cars per day as soon as all the mills get to going. That will make a mile a day. The mills that are now cutting for the Southern road are Elle Ellen, Richardson at Trucke e. Lonkey & Smith at Prosser Creek. McIntosh at Boca and the Pacific Mill at Clinton. Fowle at Dutch Flat is cutting for the C. P., and the Dog Valley mill at Verdi is cutting for the Nevada & Oregon. The output for it will be 1,200,000 feet. There is about 32 feet to the tie, and it is estimated that over 600,000 ties will be wanted besides this there will be large quantities of bridge timbers, snow shed lumber and material for shops, houses, etc., will make at least twenty-five million feet of lumber from the Truckee river mills.
